Refurbishments at Albert Ball, Heightside & Wesley House

Johnnie Johnson Housing is a not-for-profit housing association dedicated to offering quality homes for independent living, providing a wide range of quality homes for 5000 residents in the North West, North East, Yorkshire and Derbyshire. With expertise in providing housing and services for older people their motto is 'living longer, living better' which reflects our values and passion to make a difference to people's lives.

We worked with Johnnie Johnson Housing to refurbish three of their independent living schemes. After the initial meeting between us we presented a selection of our mood boards. Using our experience and interior design skills we recommended a theme to suit each room and to reflect the colour and styles that we felt would enhance the well-being of the residents and meet the initial brief. The mood boards were then presented at the consultation we held with the residents, this allowed the residents to be fully involved in the whole process of refurbishing their living areas.

From furniture, lighting, wall and window coverings, all items had been chosen to create a consistent theme throughout.

Case Study

The whole process was managed by our experienced project manager from processing the order, liaising with site staff, overseeing all the delivery and ensuring health and safety standards were met.

From consultation, design, quality furniture and project management we created an environment for the residents to feel a sense of independence and a space that was more welcoming. The three schemes were a pilot for Johnnie Johnson and they were so happy with what we created that they asked us to continue to work with them on the rest of their schemes.

Buckingham Interiors were asked to refurbish three of our schemes and the whole process, from our initial meeting to choices of quality furniture and project management was a great success. All three schemes have been transformed and look modern with stylish and quality furniture and all the rooms are so much more welcoming for the residents. The refurbishment was managed by Buckingham Interiors from start to finish and they were always very professional and helpful and took away the stress that refurbishments like this can bring.

Tricia Grierson - Head of Independent Living - Johnnie Johnson
